

Surgical Loupe 2.5x

UPGRADED

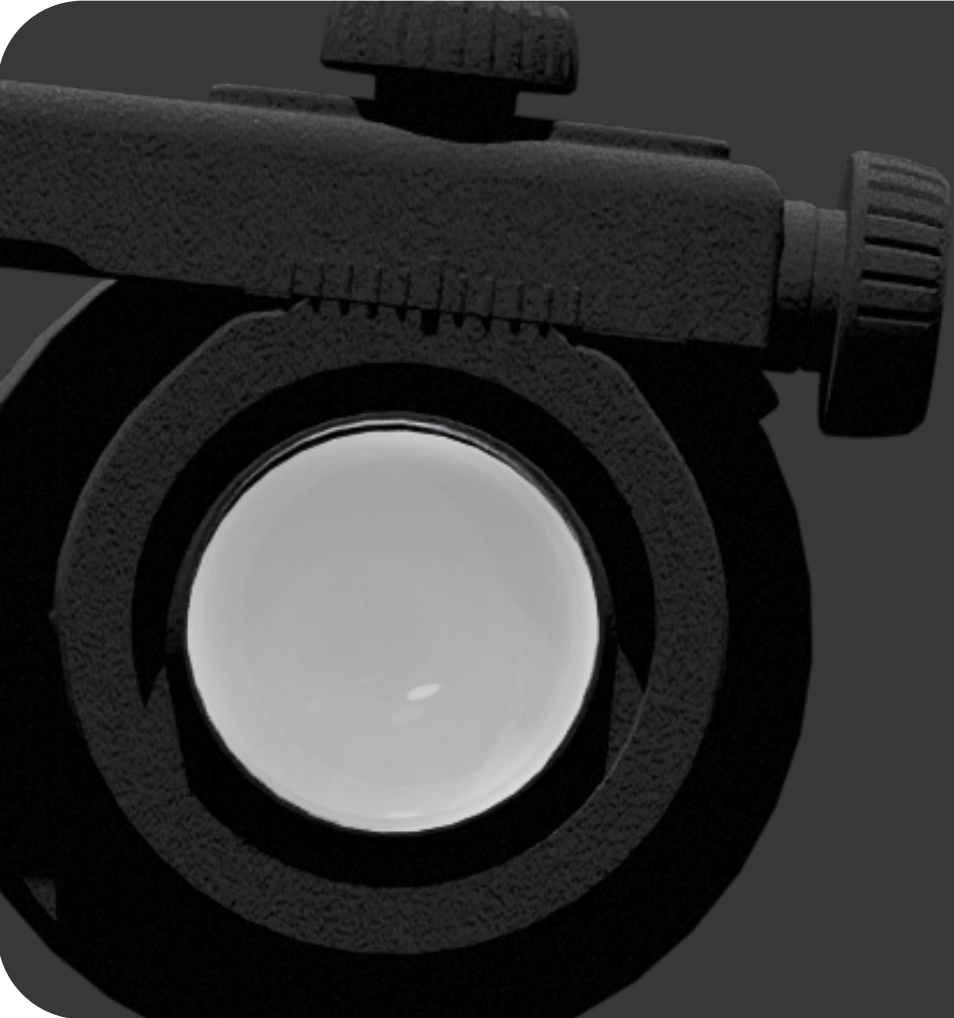

One of our most popular headlamp loupes,
With its superior optics and durable construction,
the 2.5 magnification surgical loupes are an excellent choice
for anyone looking for BiLumix headlamp to perform delicate
surgery or other tasks that require a high level of precision.

Durable Frame

The new Surgical Loupe 2.5x is
constructed with carefully picked
material that enhances durability
without compromising the weight,
making it perfect for any surgeon who
demands high quality tools in their
practice

Better Lens

With the surgical loupe 2.5x, we want
to provide you with a better experience
through longer usage and superior
clarity so your eyes are never strained
or tired while looking through our
loupes.

Easy Calibration

Don't worry about our surgical loupe
2.5x not fitting right to your eyes. We
help our customers with initial
calibration based on their interpupillary
distance and also made it simple and
easy for anyone to adjust it to fit
perfectly to their sight.
